

Meet Your Advanced Practice Nurse

Angela Zora, APN/FNP-BC

Why I chose Healthcare

"I began my career in healthcare as a RN. As I became more seasoned, I wanted to advance my knowledge and chose to become an advanced practice nurse to better serve my patients. I experienced first hand, how a nurse practitioner's expertise can further a patient's understanding of their condition and deliver personalized care to the patient."

BS

Millikin University, Nursing, Decatur, IL

MS

University of Illinois, Chicago, IL

Certification

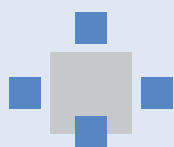

Board Certified as an Advanced Practice Nurse and Family Nurse Practitioner

Department of Dermatology

In the Department of Dermatology, Ms. Zora helps with the diagnosis and medical treatment of skin diseases. She performs physical examinations, prescribes, interprets laboratory tests, performs skin biopsies, surgery, and cosmetic procedures for facial rejuvenation.

Ms. Zora want patients and families to know that she will do everything she can to help them feel better. She enjoys reading and learning new things which helps her keep up to date on the most current practices. When she is not at work, she can be found spending time with her husband, Chris, and their two sons, Andrew and Jacob.

I strive to create an environment for my patients that allows them to feel comfortable asking questions, so that they can get results. As a healthcare provider, I only get to see my patient for a short amount of time, but I want them to get their questions answered at the visit so that they can feel confident managing their condition when they return home.

CHRISTIE CLINIC

We listen. We care.
